

Supplier self-assessment regarding RoHS Directive Conformity to RoHS Directive (2011/65/EU)

QUESTION:

Do the items you supply fall within the scope of the RoHS Directive (2011/65/EU)?

IF SO:

It is of fundamental legal and economic importance to us that the items you supply fully meet the material requirements of the legal acts mentioned.

We must therefore ask you to provide us with the associated EU declarations of conformity with the RoHS Directive (2011/65/EU) for the relevant product groups in this portal.

It must be ensured that these declarations are signed by authorized signatories and that a clear reference is made to the items you have supplied.

IF NOT:

If the articles you have supplied do not fall under the scope of this guideline, we ask you to provide us with a manufacturer's declaration on this portal stating that these articles are not affected by the scope of this guideline.

If your product portfolio does not fall under this guideline, this information is sufficient for us in the context of a manufacturer's declaration, even without reference to individual items.

It must be ensured that this manufacturer's declaration is signed by a person who is authorized to do so.
