

Supplier Self-Declaration: Product Carbon Footprint (PCF) *

Calculation and reporting of a product's carbon footprint for greenhouse gas accounting in accordance with the GHG Protocol.

This data is essential for us as a company to meet our customers' requirements.

QUESTION:

Can you provide us with a Product Carbon Footprint at the item level?

IF YES:

Please provide us with all relevant information in the designated template at item level (we will provide you with the template - please request it from us). If this process is not feasible for you, please contact us directly so we can work together to develop an alternative solution.

IF NO:

If you are unable to provide us with a PCF value at this time, we require the weights, basis weight unit of the materials you supply, as well as the main material (if possible). If you have any questions, please feel free to contact us at any time.
